

Harvey Solar - Licking County, Ohio

A Local Partnership

- Harvey Solar is working with landowners, farmers, and community leaders to build a state-of-the-art solar facility
- No need for taxpayer-supported services
- Creates 700 direct jobs during construction
- Support for regional manufacturing and fabrication
- Road use and maintenance agreement with county and township (will strengthen and upgrade roads to current or better condition after construction)
- Provide township and county EMS with training and any needed equipment
- Partner with a vocational school, and funding for training or scholarships

The Solar Advantage

- Cost of solar has decreased by 70% in the last decade
- Less reliance on out-of-state electric generation
- Improves air quality, which has health benefits and increases crop yields
- No odor or air pollution, no dust, no discernable movement, quiet, not operated at night, minor traffic, and little light
- Panels have low profile and area is flat

Harvey Solar - Licking County, Ohio

350 MW OF CLEAN ENERGY

100% clean energy produced locally and used for regional energy demand.

\$3.15 MILLION ANNUALLY

Harvey will provide \$3.15 million annually for local schools, county, and local services.

700 CONSTRUCTION JOBS

Solar jobs range from electrical, engineering, construction, and installation.

FARMLAND PRESERVATION

Harvey will use limited herbicide and will have native turf grass and pollinator cover. Land will be placed back into agriculture when project is decommissioned.

80% OF JOBS FOR OHIO

80% of the workforce on a solar project will be Ohioans. Harvey will promote local job opportunities.

EMS AND FIRE TRAINING

Harvey will provide local EMS and fire department training on how to manage any emergencies.

LOCAL TRAINING

Harvey will partner with a local joint vocational high school and provide on-going support for a training program.

LASTING PARTNERSHIP

Harvey will employ 6-12 full-time employees, will pay 25x the current taxes paid on the same acreage, and provide clean, renewable energy for years to come.

MAINTAIN INFRASTRUCTURE

Agreements are put in place with county and township to strengthen and upgrade roads, to current or better condition.
